The Price of Cremonas.

The advance in price of Cremona violins within the past twenty years has been almost incredible. Violins which were in the hundreds at that time are now in the thousands, and the advance is going on steadily all the time. It is the masterpiece which have advanced the most, as the whole world seems to be clamoring for the greatest works of Stradivari and Guarnerius, the two admitted greatest makers of the world.

Famous for Date Palms.

Bagdad is famous for especially flavored date palms. There are several famous date forests about the delta of the Tigris and Euphrates. One of the most interesting and useful relics of the Moorish civilization that remains in Spain is the most wonderful palm grove in the world. It might be called a fitting monument to the foresight and careful husbandry of those unfortunate people.

Essentials to Achievement.

There are five essentials to achievement in every line: Vision, initiative, sound judgment, confidence, and courage. And each of these qualities is inspired and fostered by knowledge. -The Business Philosopher.

Mrs. SMITH RECOMMENDS CHAMBERLAIN'S TABLETS

"I have had more or less stomach trouble for eight years," writes Mrs. G. H. Smith, Brewerton, N. Y. "When suffering from attacks of indigestion and heaviness after eating one or two of Chamberlain's Tablets have always relieved me. I have also found them a pleasant laxative." These tablets tone up the stomach and enable it to perform its functions naturally. If you are troubled with indigestion give them a trial, get well and stay well.

Needs of the Child.

The child needs the kinds of food that make blood, bone and muscle so he should always have cereal for breakfast. Cornmeal is excellent and oats are favorites with a nation noted for its good health, the Scotch. Here is what the doctor says about milk: "The child may not like milk—he should be encouraged to try it in various ways. The growing child needs variety, all of it, and the skimmed variety does not answer the purpose at all. The fat plays an important part in the development of the little body."
